

ABSTRACT OF DISCLOSURE

An ink package including: an ink accommodating bag in which ink is accommodated and which is formed of a first flexible sheet; an outer bag which is formed of a second flexible sheet and which encloses the ink accommodating bag such that a space is defined by and between the ink accommodating bag and the outer bag; and an ink delivering member including a fixing portion to which the outer bag is fixed at an opening thereof and an extending portion which is formed adjacent to the fixing portion so as to extend toward an inside of the outer bag in a first direction of the fixing portion and to which the ink accommodating bag is fixed at an opening thereof; and wherein the ink delivering member further includes an ink outlet passage through which the ink in the ink accommodating bag is delivered to an exterior of the ink package and a communication passage through which the space is held in communication with the exterior of the ink package.
